Executive Summary

Frontend Developer with internship experience at TechHorizon and a strong base in building responsive, user-focused applications. Skilled in LinkedIn outreach and teaching, with a passion for clear communication and collaboration. Now pursuing a BS in Artificial Intelligence at MAJU, driven to combine frontend expertise with AI to shape practical, future-ready solutions.

Core Competencies and Skills

Frontend Development | React.js | JavaScript (ES6+) | HTML5 & CSS3 | Bootstrap & Tailwind CSS | Responsive UI/UX Design | State Management (React Hooks & Context API)

Backend & Database | Firebase (Authentication, Firestore, Realtime Database) | API Integration (REST APIs, OpenWeatherMap API)

Development Tools & Version Control | Git & GitHub | Debugging & Performance Optimization | Code Versioning & Deployment

Education

- **Bachelors in Artificial Intelligence** – Muhammad Ali Jinnah University (MAJU) (Sept 2025 - Present)
- **Diploma in Software Engineering (ACCP Prime 2.0)** – Aptech Pakistan (2024 - Present)
- **React with Firebase Bootcamp** – CodeGirls by ConsulNet Corporation (Dec 2024 - Mar 2025)
- **Intermediate in Pre-Engineering** – Govt. Degree College for Women Nazimabad (2022 - 2024)
- **Matriculation in Science** – New Day Secondary School (2019 - 2021)

Professional Experience

1) Frontend Developer Intern at TechHorizon – (Apr 2025 - Jun 2025)

Developed the complete UI of the company's official website and built a responsive laptop e-commerce platform with customer and admin dashboards. Gained professional experience in UI structuring, component-based development, and frontend workflows.

2) LinkedIn Outreach Intern at Trendtial – (May 2025 - Aug 2025)

Supported the company's growth by running targeted LinkedIn outreach, managing connections, and engaging with professionals. Strengthened skills in communication, digital engagement, and remote collaboration.

3) Teaching Experience – (Sept 2023 - Jan 2024)

Taught students from ECD to grade 12, creating adaptable lesson plans and simplifying complex topics. Improved presentation, problem-solving, and communication while working with diverse learners.

Certification

- **Google IT Support** – [Coursera Certificate Link](#)
